the development co operation report is the key annual reference document for statistics and analysis on trends in international aid written by a multi disciplinary team of contributors this collection explores the different dimensions of well being poverty and

inequality a person's sense of well being is compounded of many elements including economic political and social psychology poverty and inequality are aspects of a lack of well being in multiple dimensions and this text argues development should be considered a process that overcomes these multiple deficiencies this book examines the advantages of analysing poverty and development by multi discipline research economists political sociologists and anthropologists put forward an idea of well being from their own perspective using their own research material while the editors argue in their introduction that bringing to bear of many disciplines can enrich the research output of all

focuses on rural poverty and those countries in asia with the largest number of chronically poor including the two emerging superpowers of china and india other countries of south asia and the mekong region as well as indonesia and philippines in southeast asia

development researchers face many challenges in producing robust and persuasive analyses often within a short time frame this edited volume tackles these challenges head on using examples from other fields to provide practical guidance to research producers and users

prior work has shown that there is a significant amount of turnover amongst the african poor as households exit and enter poverty some of this mobility can be attributed to regular movement back and forth in response to exogenous variability in climate prices health etc churning other crossings of the poverty line reflect permanent shifts in long term well being associated with gains or losses of productive assets or permanent changes in asset productivity due for example to adoption of improved technologies or access to new higher value markets distinguishing true structural mobility from simple churning is important because it clarifies the factors that facilitate such important structural change conversely it also helps identify the constraints that may leave other households caught in a trap of persistent structural poverty the papers in this book help to distinguish the types of poverty and to deepen understanding of the structural features and constraints that create poverty traps such an understanding allows communities local governments and donors to take proactive effective steps to combat persistent poverty in africa this book was previously published as a special issue of the journal of development studies

why poverty persists significantly advances our understanding of the temporal dimensions of poverty its judicious mix of new

evidence and improved methods offers new insights into why some people remain mired in poverty and the forces that keep them there all those interested in combating poverty academics donors and those working in the non governmental organizations will learn from the carefully constructed african and asian case studies presented john hoddinott international food policy research institute washington dc us ten years ago bob baulch and john hoddinott drew our attention to the phenomenon of poverty dynamics an insight into the unpredictability of poor peoples livelihoods that had profound implications for poverty thinking and policy forcing a rethink of static conceptualisations and measurement and raising challenges for targeting anti poverty programmes in this new volume baulch and colleagues enrich this understanding with rigorous analysis of panel datasets from six countries in africa and asia most impressively this illuminating collection by technical microeconometricians is equally accessible to non technical readers which effectively communicates its important messages to development policy makers and practitioners stephen devereux university of sussex uk this volume on poverty dynamics in developing countries whose authors include the leaders in this field is a must for analysts and research students it advances the literature by addressing three important issues measurement error attrition and tracking for each of these questions the volume leads by example showing how they can be handled in specific cases the results show that escape from poverty is a diverse phenomenon and establish the importance of country and context specificity the volume provide an analytical platform for careful policy assessment of policy alternatives ravi kanbur cornell university us at the beginning of the 2000 2010 decade bob baulch with john hoddinott was setting the micro econometric agenda on poverty dynamics and chronic poverty and producing work that non economists had to read if they wanted to conduct serious research on these issues in this volume though his analytical excellence the pursuit and methodological rigour extraordinary energy and his ability to lead such a distinguished network of colleagues bob baulch has set the research agenda on poverty dynamics and chronic poverty for the next ten years from the foreword by david hulme university of manchester uk

this book brings together the key papers in the indian poverty debate together with a new introduction that provides an overview and synthesis the collection also contains some seminal papers that link the current debates to the earlier literature as w

this volume focuses on the dimensions and determinants of poverty in asia contributions from jean drÃ©ze amartya sen and others cover issues such as democratic practice and social inequality in india thailand the philippines pakistan and vietnam the book also examines democratic decentralization institutional constraints land reform the role of politics and economic growth in poverty reduction and the importance of beneficiary participation in public safety net programs

this is the fourth annual review of africa s economic performance and near term prospects which seeks to build on the work of the three previous reports by laying out an agenda based on systematic benchmarking of economic performance the report finds that economic growth in africa slowed in 2002 to 3 2 per cent from an average of 4 3 per cent per year previously reflecting the slower than expected recovery in world trade the effects of drought and aids in southern and eastern africa and the political and armed conflicts in several countries despite these problems well managed economies with solid reform agendas and good governance performed well and this mixed performance highlights the importance of steady growth levels for effective poverty reduction and sustainable improvements in living standards the report also contains seven in depth country studies of uganda rwanda mozambique ghana egypt gabon and mauritius which reveal a number of inter country disparities in growth and development levels between urban and rural areas
