from the clash of bronze weapons on bronze armor to the fall of rome war often decided the course of ancient history this volume is a practical introduction to the study of warfare in the ancient world beginning with egypt and mesopotamia and tracing the advances made in battle tactics technology and government over hundreds of years culminating with developments in greece and the roman empire the chronological structure allows the reader to trace certain general themes

down through the centuries how various civilizations waged war who served in the various armies and why who the generals and officers were who made the decisions in the field what type of government controlled these armies and from what type of society they sprang major events and important individuals are discussed in their historical contexts providing a complete understanding of underlying causes and enabling readers to follow the evolution of ancient warfare as armies and empires became steadily larger and more sophisticated yet as chrissanthos makes clear history comes full circle during this period rome's collapse in 476 c e inaugurated an unforeseen dark age in which great armies were left decimated despite advanced technology that while proving decisive in the outcome of many critical battles and stand offs had vanished amidst the empire's crumbling walls in addition to the chronological treatment chrissanthos also includes sections on such important topics as chariot warfare cavalry naval warfare elephants in battle the face of battle and such vital but often overlooked topics as the provisioning of the army with sufficient food and water eyewitness accounts are incorporated throughout each chapter allowing the reader brief glimpses into the life and times of peasants and soldiers generals and politicians all of whom were dealing with war and its irreconcilable consequences from differing vantage points battle diagrams and maps are carefully placed throughout the text to help the reader visualize particular aspects of ancient warfare the book also furnishes a detailed timeline and an extensive bibliography containing both modern and ancient sources

introduces contemporary readers to the lay theological writings of british novelist and playwright dorothy l sayers

myths of the greeks and romans is an essential guide to ancient literature the myths told by the greeks and romans are as important as their history for our understanding of what they believed thought and felt and of what they expressed in writing and visual art mythology was inextricably interwoven with the entire fabric of their public and private lives this book discusses not only the purely fictional myths fairy tales and folk tales but the sagas and legends which have some historical grounding this is not a dictionary of stories rather a personal selection of the most important and memorable michael grant re tells these marvellous tales and then explores the different ways in which they have appeared

throughout literature it is an inspiring study filled with quotations from literary sources which gives the reader a fascinating exposition of ancient culture as well as an understanding of how vital the classical world has been in shaping the western culture of today

human wisdom is of little or no value wrote plato in his apology and yet the ancient greeks including plato himself more than any other people of antiquity were fascinated by the pursuit of the wisdom they called philosophia that search for knowledge involved an extensive use of maxims and quotations as we can see from those expressions of homer prefaced by the phrase as people say homer the seven sages and the pre socratic philosophers are still extensively quoted in all the major western languages yet for all their popularity until now there has been no single resource to which interested readers might turn this unique reference book offers one of the most comprehensive selections of greek quotations ever committed to print with its english text matched by the original greek the volume collects 7500 entries ranging from the archaic period to late antiquity and across philosophy drama poetry history science and medicine each indexed with key words to enable fast sourcing together these selections provide an incomparable insight into the glories of greek civilization

ancient greece is brought to life with information on architecture philosophy mythology politics literature

this second edition now offers even more to families students researchers or those just looking for some interesting reading includes national and international news events of 1991 schedules of conventions and crusades book music leadership magazine and video award winners lists of christian schools foundations churches and other organizations and more

aspects of western civilization challenges students with basic questions regarding historical development human nature moral action and practical necessity this collection of diverse primary sources incorporates a wide variety of issues and is organized around seven major themes including revolution and historical transition imperialism social and spiritual values the varieties of truth the institution and the individual the power structure and women in history
